SERVICE/GB/LCS.

23rd February 1942.

Mr. L. Gilbert,  
83, Balmoral Drive,  
BARROW IN FURNESS, LANCs.

Dear Sir,

We are in receipt of your letter of the 16th, enquiring for a complete set of gears for the 4-speed unit on your 1937 A.J.S. machine.

We are not, however, clear whether you require close ratio gears exactly as now fitted in the Gear Box, or whether it is your intention to convert to standard ratios. However, we fortunately still carry a good stock of the majority of the gears for the H.W. 'BAP' type unit, and can probably supply all your requirements.

We enclose our handbook as requested, together with an illustrated spare parts list, which will give you the prices of the new gears should you decide to order. Prices are plus postage.

Yours faithfully,  
BURMAN & SONS LTD.
